

5/16/98

Dr. Shalala,

I am concerned about the cruel methods used to produce the Estrogen Replacement Therapy (ERT) drug Premarin, manufactured by Wyeth-Ayerst Pharmaceuticals from the urine of pregnant mares.

I object to the use of Premarin in the Women's Health Initiative (WHI) and will not participate in the study unless the use of Premarin is terminated.

With many other safe and effective ERTs on the market and available for study, I urge you to take immediate action to stop the use of Premarin in the WHI.

Sincerely,

Name Jeannine M. Sieler

Address 20538 NE 179th St

City/State/Zip Woodinville WA 98072
